Twin Girls, 11, Drown In Grass Lake When Thin Ice Gives Way

Samuel Beaman Unable to Save Daughters, Mary Jane, Hazel Jean

There was sadness in the Grass Lake Grade School this week among the children.

The twins, Mary Jane and Hazel Jean Beaman, 11, who although enrolled in the sixth grade but a short time ago, had proved so interesting to their classmates, are missing.

The little girls were drowned Sunday when they fell through the ice about 50 feet off the east shore south of the Grass Lake bridge.

Their father, Samuel Beaman was nearly drowned trying to rescue them.

The tragedy occurred on the day that the Beamans were holding a birthday party in celebration of the first anniversary of little Margery Louise Beaman, youngest of the six other Beaman children. The Beamans live at Grass Lake.

The drowning occurred about 1:15 p.m. Deputy Sheriff Edward Boehm said the girls fell through the ice while playing with an unidentified neighbor boy. The boy ran to the Beaman home near Sunset-lodge and summoned Mr. Beaman, 44, who dashed out on the thin ice to save his children, but he too, broke through into the icy water.

Fred Mitchell, a neighbor, quickly obtained a rope which he tossed to Mr. Beaman, floundering in the water and pulled him to shore.

Recover Bodies Soon
The Antioch Rescue squad sped to the scene, too late to effect a rescue, but recovered the bodies in about 30 minutes.

Dr. Alan Thain pronounced the girls dead at the scene of the accident and gave attention to Mr. Beaman who suffered from exposure.

School attendants said that the twins had been out of school suffering from flu but had planned to return this week. An older brother, Robert, is in the eighth grade.

The teachers said the twins were "alert little girls," who had done well in their work since enrolling in September.

The two children, not used to conditions of the lake, no doubt presumed that the ice south of the bridge was as thick as that north of

Ralph Gresens Saved By Safety Belt in Car-Truck Collision

Ralph Gresens believes he is alive today because he wore a safety belt while driving his car last Friday evening.

The proprietor of Thebest Venetian Blind Co., residing at 887 Main street, escaped with a concussion, a badly cut lip, a leg injury and bruises when his car rammed into a trailer truck parked on the highway on Rte. 59 just north of Grand ave.

The truck driver, Stanley Gancarz, Chicago, was arrested by Deputies Fred Zeason and William Wood and charged with illegal parking and illegal lights in connection with the accident. He is scheduled to appear before Justice of the Peace Emil Lindvall in Waukegan tomorrow.

Gresens was driving north on Rte. 59 and as he got over the crest of a hill he saw a semi-trailer truck parked in the northbound lane. There were lights on the cab, but not on the rear, and in the darkness—it was about 7 p. m.—he couldn't tell the distance it was ahead. He applied the brakes, but the pavement was icy and he skidded onto the southbound shoulder, returned to the pavement and rammed the left rear end of the trailer.

The impact knocked the rear wheels off the truck and damaged the axle, deputies said, and the car ended up three feet under the trailer. The car was demolished.

Gancarz told the police he ran out of gas while the truck was in the northbound lane. The impact of the collision knocked him out of the right door onto the northbound shoulder of the road.

The deputies said the truck driver told them he was preparing to put out flares, but Gresens doubts that he had any flares and didn't seem to know how to light them when Gresens produced them to warn other motorists.

Had not he been wearing a safety belt, Gresens believes the impact would have been sufficient to have killed him. He was treated by a local physician and is recovering at his home.

Renew The Spirit That Built Our Country

Only 21% of Parents of A.T.H.S. Students Vote in Referendum in Which Educational Tax Increase Was Defeated 454 to 428

Antioch Explorer Scouts Harvest Own Christmas Trees at Duluth, Minn.

Five Explorers and a Scoutmaster of Troop No. 91 B. S. A., sponsored by the American Legion Post No. 748, left last Wednesday for Duluth, Minn., where they cut Christmas trees. These trees will be sold at a new location this year. The new location is the Drie Chevrolet used car lot on Routes 173 and 59.

Les Eddy, the Scoutmaster took explorers, George Sterbenz, Ed Martin, Joe Eiten, Joe LaFlamme and Dan Ludford to pick, cut and bundle the trees. The boys were planning to go to Canada to have their Thanksgiving dinner, but due to car trouble they ate dinner about 100 miles from Duluth. The boys worked in temperatures of 8 below zero. They really enjoyed the work.

W. V. Lahti gave them the use of his truck to haul the trees back, George Swenson and Adolph Bente transporting them.

The boys will sell trees from 3:30 p.m. to 9 p.m. every day. Free coffee and doughnuts will be served on Fridays, Saturdays and Sundays.

Weather for November Usual Says Roy Kufalk

It was the usual November weather that Antioch experienced this year, Roy Kufalk, cooperative observer concluded Saturday.

The highest temperature for the month was 61 on the first day and the lowest, 13 degrees above zero on the last day.

The total precipitation for the month was 3.06 inches, with 1.42 inch falling on the 13th and 14th.

There were only traces of snow throughout the month with the first snowfall on Nov. 8.

Lack of Approval by 26 Votes Threatens Deficit Spending in 1958-59

Only 21 per cent of the parents of Antioch Township High School students took the trouble to vote Saturday afternoon at the referendum in which the proposal to increase the education tax 15 cents on the \$100 assessed valuation was defeated 454 to 428.

Of the estimated 1,200 parents, the poll books showed that only 250 went to the polls.

The defeat of the measure by only 26 votes showed a big turning of the attitude of the voters who in a previous referendum had defeated a proposal to increase the educational tax by 21 cents and a building fund tax of 84 cents by a vote of 658 to 374.

Only 884 persons went to the polls this time in contrast to 1,034 in the previous election. Two ballots at Lake Villa were spoiled.

Carries in Lake Villa

The proposal carried in Lake Villa township but was turned down in Antioch township. The vote was Antioch Precinct No. 1—284 yes, 385 no; Lake Villa No. 2—75 yes, 46 no; Lindenhurst No. 3—69 yes, 23 no.

The Board of Education plans to let the matter rest for the time being, Supt. A. L. Dittman said.

"If we are to continue our present standards, we soon will be into deficit spending which we have tried to avoid to save taxpayers interest costs," he said.

The need for more money to hire teachers for the rapidly increasing enrollment will make borrowing of money necessary in the next two years. Should the referendum have been favorable the extra money would not have been received until 1959-60.

Local Police Records To Be Modernized For Fine Collection

Mayor Calls for Monthly Report From Police Magistrate on Cases

Modernizing of police records, especially as they concern parking tickets, is in the process for Antioch, Herman Holbek, chairman of the police committee and Mayor Cunningham announced Tuesday night at the Village Board meeting.

The announcement followed a demand by the mayor that monthly reports be made by the police magistrate on disposal of all cases in his court.

Trustee John Blackman objected to the recording of names, but other members of the Board informed him that other villages and cities made public this information and the public has a right to know what the court is doing.

Heretofore Police Magistrate E. E. Brook has merely handed in the number of cases and the check for the amount of the fines.

Chairman Holbek says the new filing system and the record cards will note tickets or fines assessed; those paid and those unpaid. Upon failure to pay the third ticket arrest will take place and a heavy penalty assessed along with court costs.

Most of the parking tickets are now collected for in the street boxes. Still, the report of the police committee shows that last month 204 tickets were issued and so far only 81 fines have been paid.

The new system will narrow the gap to a minimum.

There were five moving traffic violations during November and all five were paid for in fines. Police Chief Walter I. Scott also reported five accidents, three petty larceny cases and one case of dog bite.

Seven dogs were impounded, and six were disposed of, two by owners' (Continued on page eight)

Personal Property Tax Debtors Pay Before Attachment

Delinquent personal property tax debtors have been paying up, Justice of the Peace Herbert J. Litchfield said yesterday.

Two executions were issued last week, but before the property could be attached, the payment of the tax, interest and costs were paid.

Others on who summons were issued came in and paid.

Judge Litchfield said that he is now preparing 200 summonses for delinquent tax debtors in the area west of Antioch.

"I hope they are wise and come in without causing executions to be served," he said.

Judge Litchfield said he had received many telephone inquiries regarding payment.

Firemen Get 3 Calls In Past Twelve Days

The fire department was called to the Arthur Meyer residence at 489 First st. Wednesday afternoon where Mrs. Meyer thought leaking gas was detected.

No damage was done and the firemen rectified the furnace situation.

The firemen were called out on grass fires at the California Subdivision west of Seventh avenue a week ago Sunday and to Rte. 45 and Dilley road on the Saturday before.

Antioch High to Open Conference Season in Game With Grayslake

Antioch High will open its conference basketball season here Friday night against Grayslake after having entered the winning column in a pre-Thanksgiving game with Richmond there 43 to 41.

The Antioch Frosh-Soph team also won from the Richmond underclassmen 29 to 26.

A big crowd is expected at the Rams-Sequoia game. Seating space has been marked off and after the seats are filled no more admission tickets will be sold.

"This is to avoid a fire hazard of blocked doors," said Coach Larry Leon.

"The Antioch boys are going to have to play good ball if they want to beat Grayslake," Coach Leon predicted.

His comment was in keeping with the situation at Richmond where both teams played ragged ball, and it was only in the last half that Antioch was able to forge ahead.

The Sequoias have the ability if they can apply it especially on defense in a full court press. They have the height.

Coach Leon said that after the team got under way last year it did a good job, but the two times it let down on what was thought easy games, it suffered to the extent that it never fully recovered. He is hoping that they start early this year.

Grayslake has lost to Libertyville, Hebron, and Palatine so far this year.

The summary of the Wednesday, Nov. 2 game is:

Edith C. French, 69, Antioch Resident Dies

Edith C. French, 69, 265 Park Avenue, Antioch, died Monday, Dec. 2, in the Venetian Manor Rest home, Lake Villa, after eight months of illness.

Mrs. French was born February 23, 1888 at Norwich, Kansas. She lived in Muncie, Ind., Chicago and McHenry previous to moving to Antioch in 1939. She was a member of Antioch Chapter Order of Eastern Star. She was preceded in death by her husband, Walter G. French, in October, 1941. He was an attorney, having practiced in Chicago, McHenry and Antioch. Mrs. French is survived by a brother, Robert Cary, of Antioch.

Funeral services were held at 1:30 p. m. today (Thursday) at the Strang Funeral home, with Antioch Chapter O. E. S. officiating. Interment was in Hillside cemetery.

Outstanding 4-H Member

Miss Emily Reichenbach, daughter of Mr. and Mrs. Carl Reichenbach of Grass Lake was presented an award as an Outstanding Honor member in home gardening and flowers at the Grayslake 4-H club Nov. 15, at Round Lake. She is a county project honor member in home gardening and flowers.

A group of 4-H girls attended a style show at Mundelein Nov. 29.

Three Boys and Three Girls To Be Given Free Helicopter Ride

Free Show at Lakes Theatre

Santa Claus will arrive in Antioch Saturday afternoon by helicopter. The Chamber of Commerce said that it had been notified that the "whirly bird" will land at the village parking lot on Broadway at 1 p. m. Three girls and three boys will be taken on a 'copter trip before old Santa will go to the Barnstable building, formerly the National Food store on Main st. to greet the children, hand out treats and learn what they want for Christmas.

O. I. Onstad, retiring president of the chamber, said that parents may now register their children at any Chamber of Commerce member business place, and that Santa will draw by lot the names of the boys and girls who will make the helicopter trip.

Arrangements have been made for the children to attend the Lakes Theatre free during the afternoon. This will give the parents an opportunity to shop without the prying eyes and ears.

Antioch merchants have commenced to prepare their show windows and arrange their stock for the holiday season. Decorations on the light standards already have been put up and the big candy canes are quite attractive.

The Chamber of Commerce completed its Christmas plans at a dinner meeting Monday at Smart's Country House. Entertainment was a movie on the Dresden Power plant near Henry, Ill., and the influence it will have on the life of the people. The movie was shown by Mr. Fordham, superintendent of services for the Public Service Co. in Northern Lake county.

Antioch Post Office Readies for Xmas Rush

The Antioch post office is getting ready for the Christmas rush—in fact, sales of stamps and mailing of Christmas packages to distant points already has started.

The office will be open on Wednesday afternoons, Dec. 11 and 18, but after Christmas the Wednesday afternoon closing will be resumed. Beginning Monday, the windows will open at 7 a.m. and close at 6 p.m. Two windows will be open to receive deposits of packets of letters, and Postmaster Roy Kufalk asked that if the street box is used, letters be tied in packets.

The Rescue Squad building again will be used to relieve the crowded conditions at the post office during the Christmas rush. This year mail will be sorted there (but not deposited there) for delivery, and the rural carriers will remain at the regular office.

Cancelling machines will be taken to the Rescue Squad building for the work.

The public is not to come to the Rescue Squad building, Kufalk said.

Rose F. Rakow, 67, Dies After Long Illness

Miss Rose F. Rakow, 67, East Loon Lake Shores subdivision, Antioch, died Sunday, December 1, at the Lake County General hospital, following six years of illness. She was born January 3, 1890 in Chicago, living there until moving to Antioch 17 years ago. She had made her home with her sister, Mrs. John Kopecky, for the past 34 years.

Miss Rakow was a member of Faith Evangelical Lutheran church at Antioch. She was a retired practical nurse.

Survivors are five brothers, Martin F. of Los Angeles, Calif.; Walter C., Denver, Colo.; Arthur L. of El Monte, Calif.; Paul E. of Chicago, and Alfred D. of Waukegan; one sister, Mrs. Alma B. Kopecky of Antioch. She was preceded in death by her parents, Henry F. and Bertha Rakow, and a brother, George J. in March 1955.

Funeral services were held at 1:30 p. m. Wednesday at the Strang Funeral home. The Rev. R. P. Otto of Faith Evangelical church of Antioch officiated. Interment was in Home Oak cemetery.

Mr. and Mrs. Bernard Osmond and family spent Thanksgiving holiday with Mr. and Mrs. Harry Bristol at Araboo, Wis.

Antioch, Lake Villa, Newport Twps. Get School Unit Report

Boards of Antioch Township grade schools and the Antioch Township High school were told to form a unit system of school management as soon as possible in recommendations made by the Northwestern Survey Services Monday evening.

The recommendation followed a study of material gathered by the Citizens Committee of 41 members composed of representatives of the schools in the high school district.

The summary of recommendations said:

1. It is recommended that a unit district composed of those districts participating in this study be formed as soon as possible.

2. The high school district should issue sufficient bonds to cover construction of needed facilities for the immediate future. This should be done prior to the formation of the unit district.

3. Each elementary district as it is now organized in its entirety should come into the unit district.

4. Lotus and Spring Grove should be a part of the unit district.

5. All students who have started in a given high school prior to

the establishment of a unit district should be allowed to finish their academic career in the school of their choice.

6. Arrangements should be made to hold to an absolute minimum payments between districts for equities in existing buildings.

7. In thinking of long range plans, a high school should be planned between Lake Villa and Antioch. Also, (a) a junior high

school should be planned for Lake Villa; (b) a junior high school should be planned for Antioch; (c) Kindergarten through sixth grade should be planned for Antioch, Lake Villa, Grass Lake, Channel Lake, Deep Lake, Newport, and possibly Emmmons; (d) consideration should be given to closing of Hickory and Millburn Schools.

8. Approximately \$300,000 in bonds should be voted by the high school district before formation of the unit district.

9. The bond money should be used for a junior high school at Lake Villa, completion of the unfinished portion of the Antioch district school on Deep Lake road, and necessary additions to the Antioch High School to accommodate 800 to 900 pupils.

10. The boundary lines for the new unit district should be as indicated on a map furnished in the report. (Roughly the map enlarges the district at the southwest corner, takes in all of Dist. 41 at Lake Villa, and extends east of Millburn in Lake Villa township and east beyond the high school district line in Newport Township.)

Committee Report Tonite

The Citizens Fact Finding committee and the Northwestern University Survey Services will make their report on the Unit School System to the public tonight (Thursday) Dec. 5, at the Antioch Township High School auditorium at 8 p.m.

This report will be of interest to all persons in the Lake Villa, Newport and Antioch townships. All school districts in this area would be a part of the unit school system.

Dictators and the Economy

During one of the President's recent conferences, he was asked what government programs would be reduced or eliminated in the effort to cut federal spending. In answering, he laid special stress on federal electric power development, saying: "... there is a very great difference between local or state government building things, that is, a public utility system or a dam or anything else, and the federal government doing it. Because as federal government begins to run riot with the expenditures that it deems good for the country, if necessary, it can print money; it can go into debt."

Then the president added: "... any government that controls all the power in the country can really dictate what the economy is going to be. They can shift it and everything else." He made it clear that the Administration will continue to support the "partnership" plan of power development, which lays the primary responsibility for meeting local power needs on local private enterprise, local government, and other local groups.

Many people see eye to eye with the President in his views on federal power—socialized electricity. These public plants escape all or the major part of the tax burden borne by private enterprise. They become political footballs. And there is plenty of evidence that the people don't want them—in local election after local election proposed public power plants and systems have been voted down.

That to one side, what the President said about federal power is unassailable. These monopolies are forced on the people by politicians who make careers of promoting bigger and costlier government, and the people have no choice in the matter. Their power projects are tax-dodgers on a grandiose scale. And inevitably, they become dictators against whose policies there is no effective recourse.

Better Than We Realize

In all fields of science new discoveries are constantly being made and new knowledge gained. That is true of a science which is of direct personal interest to us all—dietetics.

As an example, it has long been known that meat is one of our most important sources of needed top-quality protein. And now it seems that meat is an even better source than we realized. Studies conducted by Dr. Ruth M. Leverton at Oklahoma State University show that cooked meats—including beef, pork and lamb—contain substantially more protein and substantially less fat than was previously considered to be the case. For instance, according to the old data, 100 grams of beef rump contained 21 grams of protein and 32 of fat. According to the new data, the figures are 32 and 11 grams respectively. Her studies also indicate that cooked meats contain a lower calorie count than was previously believed—which will be of special interest to people with a weight problem.

This high protein content of meat is of great significance. From the third month of life through old age, science tells us, the protein in meat adds up to every protein need of the body. Then, in addition

to the functions of meat protein in growth and in nutritional health generally, it plays an important role in the production of antibodies which aid in the prevention of and resistance to disease. Finally, meat is easily and almost completely digested, which qualifies it as a food well adapted to the needs of older people.

\$51 Billion Isn't Enough

The federal highway program is supposed to provide 41,000 miles of roads over a 13-year period at a cost of \$51 billion. But now, according to a growing body of evidence, it begins to appear that even that incredible sum of money isn't enough for the job. The Chicago American says: "Some authorities think the present appropriation will pay for only half the new roads we need."

It's interesting to relate this king-size problem to something that is going on in the states. In Illinois, Wisconsin and Texas determined efforts were made to lift truck weight limits to the startling figure of 72,000 pounds. The Illinois and Wisconsin legislatures did pass such bills, but in both cases they were vetoed by the state governors, on advice of highway authorities. In Texas the bill passed the House but died in the Senate—when, reportedly, members began "hearing from the folks back home."

Wisconsin's Governor Thomson, in explaining his veto, said: "Probably not more than 10 per cent of our Class A highways are constructed to carry such loads." The cost of such superhighways is unbelievably high. So is the cost of maintenance. And they are definitely not needed by private cars and by trucks of moderate size, which make up the vast majority of the traffic.

Soaring road costs are commonly blamed on inflation. This is a factor, but not the only one by any means. The oversize trucks constitute one of the principal reasons. That's why more and more people, in and out of government, are coming to believe that it is time to review our methods of raising road money—and to share the costs on a more equitable basis than is the case today.

Journalists and Doctors

Newspaper people and doctors have a great deal in common. That is the unusual theme of an editorial in the Louisville Courier Journal, entitled "Press and Medicine Both Serve the People."

The Journal says: "The two professions—medicine and journalism—have some notable points of similarity. Both are concerned with important functions of human life. Doctors strive to preserve and restore human health. ... Journalists deal with the health of human minds in a democracy by trying to keep them adequately informed."

"Both professions are practiced by men and women who are passionate believers in their calling. Here is perhaps the root of some misunderstanding. A doctor believes that all must recognize the nobility of his profession. A journalist is just as convinced that the satisfaction of the people's right to know is a duty of a high moral order. Such pride can lead to arrogance on both sides. The practitioners of both professions sometimes fail to explain their actions fully to each other or to the public, because they forget that any explanation is necessary. ..."

Happily, misunderstandings born of such causes are much less common than they used to be. More and more doctors—along with medical societies—now recognize the need for good public relations, within the framework of medicine's high code of ethics. More and more newspaper people, on their side, are showing a keen interest in the problems and achievements of the medical fraternity. The legitimate interests of both groups—and, of far greater importance, the public interest—is thus served.

The bowlers party held Saturday evening was a nice affair, with games and dancing, and a broiled chicken dinner served by the entertainment committee.

The Moose lodge of Antioch will furnish the trophies to be awarded to the winners of the bowling, singles, doubles and mixed doubles matches of the Bantam division of the 1957 Christmas bowling tournament, sponsored by the American Junior Bowling Congress. The tournament will be held at Antioch Recreation lanes.

The Mooseheart basketball team will play the Antioch high school team Friday, Jan. 11, 1958. Tickets for the game may be purchased at the regular price from Ray Horton or Lester Nelson.

A section in the stands will be reserved for Moose members and their families. Mooseheart colors will be displayed. A large crowd is expected.

Leonard Roblin was a member of a hunting party recently in the wilds of Canada, hunting for moose and bear. Leonard bagged a large bear. We hear he is donating the bear skin rug to the Moose home.

Our seventh annual children's Christmas party will be held at 2 p.m. Sunday, Dec. 27. The committee which put on this party each year are planning on making this the largest and best party of them all.

Antioch Students Sing With A Capella Group

Miss Gretchen Biel, daughter of Mr. and Mrs. Louis A. Biel of Antioch, and Miss Joan Cervenko, of Rte. 1, Antioch, have been honored by selection to the Lake Forest College Madrigal Singers, an a cappella group made up of fourteen voices. The singers will open their season Dec. 1 with the first in a series of several Christmas concerts.

Miss Biel, a sophomore transfer student from Lawrence College, is singing for the first time with the choral group. Miss Cervenko, a junior, has been a member of the Madrigal Singers for two years.

On December 6 the group will sing for the North Shore Mu Phi Epsilon professional music sorority in Evanston. The American Association of University Women will hear the group at the First Congregational Church in Waukegan on December 10. The following day they will entertain the Lake Forest College Campus Circle at their annual Christmas concert.

Salem Future Homemakers Hosts to District Meeting

Tuesday, Nov. 26, the Salem Chapter of Future Homemakers of America were hostesses to the following chapters at a district meeting, including members from Mukwonago, Washington Park, Rochester, Brookfield, Pewaukee, and Burlington.

District meetings are held so that chapters may become acquainted with the work that their fellow chapters and the state organization

are doing. The state representative of F.H.A. is Sharon Norfleet who is editor of District No. 5. She spoke on state and national projects. A few words were given by Jim Walker, Salem Future Farmers of America president. The main speaker was Doris Eckstein whose speech was entitled "What is a Good Chapter Member?" Discussions were carried on by the various participating chapters.

Keep America Beautiful

"Here's a campaign that everybody should get in on," George said, handing Molly an attractive pamphlet. "We were talking about it at the Legion meeting tonight."

"Maybe something for our woman's club to take up?" Molly asked. "I should think so. It's called 'Keep America Beautiful'—non-political, non-profit, and for everybody's benefit. It's an educational movement for the preservation and improvement of our scenic beauty—against litterbugs!"

"You mean people who toss trash

on the roadsides, streets, beaches, parks and other recreational spots, without thinking what they are doing?"

"Exactly. Not only does littering spoil the looks of the outdoors, but it costs the taxpayers money—over 50 million dollars a year just to remove litter from our primary highways alone."

"Not to mention cleaning up parks, beaches, streams and the streets..." Molly looked thoughtful.

"I'll speak about it at our next club meeting. During the winter we can get a committee going that will really do some public education work next summer."

Car Lift Offered

If any person in Antioch cannot get to church without a car lift, he or she may call Antioch 85 or 915. We will arrange transportation to and from your church.

W. J. Murphy to Seek Re-election to Third Term, Representative

Representative W. J. Murphy (R. Antioch) today announced that he would seek re-election to his third term as Representative in the General Assembly. In the 70th session just completed, Rep. Murphy served on the important Motor Vehicle Committee—License and Miscellaneous—Liquor Committee—Conservation and Waterways.

Rep. Murphy in his second term of office received recognition by being named vice-chairman of a standing House Committee and was just recently named chairman of the State Road and Bridge Law commission. He has been an industrious and sincere Representative of the people and is known by his many friends in the district for his willingness to be of service at any time.

In announcing his candidacy for re-election, Rep. Murphy said:

"It has been a great privilege to serve the people of this district in the general assembly. I have made every effort to represent them in the manner I thought they wished to be represented. I ask for the privilege of again representing them in Springfield and hope they will judge me on my merits and on my record of service to them and not by local political alliances and feuds."

Mr. Murphy directed attention to the fact that seniority is the most important single factor in the General Assembly, and with him now seeking his third term and Representative Couson seeking his second term, this District of Lake County is for the first time in many years commencing to get seniority.

"With each successive term, a Representative in the Assembly can better serve the People of his District," said Representative Murphy.

In his two terms in the Legislature he has gained the respect of his colleagues and the acknowledgment that he is very effective at handling Legislation in committee and on the floor of the House.

Re-elect Officers

The Lake Villa Fire Department has re-elected officers for another year. Irvin Barnstable is chief; Ralph Nader, secretary; and Harry Pavel, treasurer.

GRADE SCHOOL CONCERT

A large crowd is expected this evening at the fourth annual Christmas Concert given by the Antioch Grade School Band and chorus in the school gymnasium. The program will start at 8 o'clock. George Olisar will direct the junior and senior bands and Mrs. Margaret Aschenbrenner will direct the girls' chorus.

A.T.H.S. Gift Concert Sunday Expected to Draw Large Crowd

A large crowd is expected Sunday afternoon at the annual Christmas Gift concert at Antioch Township High School in which "The Messiah" by George Frederick Handel will be presented. The concert will be held in the auditorium at 3 p. m.

Townpeople will join the students in the chorus at the invitation of Kenneth Smouse, vocal director. Soloists are Mrs. Ingeborg Wiegart, soprano; Melody Midgley, contralto; Ron Peters, tenor; and Frank Denison, bass.

Louis Chenette will direct the instrumental music accompanying the oratorio; Mrs. Margaret Aschenbrenner will serve as pianist; Dorothy Romoser and Barbara Yates as organists.

The program will start with an organ prelude by Miss Yates. The audience will participate in carol singing after which the bands will play "A Merry Christmas" and the concert band will play "Christmas Suite."

Karen Horton, cornetist, will play

There Was Action at This Moment in the Antioch-Richmond Game

Wayne Herbst, No. 43, Antioch center, appears to have outjumped his Richmond High opponent in this jump-ball play of the pre-Thanksgiving game at Richmond. Other Antioch players, left to right, are Art Henke, Dick Hogan, Dick Behrens, and almost hidden behind the jumpers, Pat Roach.

Val Nicpon Bowls 710 Series in League Play At Antioch Recreation

A new bowling record was established on last Wednesday night, Nov. 27, when Van Nicpon of Trevor shot a 710 series, with games of 233-232-245. His average is 174.

Nicpon bowls in the "New Arrivals" league, and is a member of Taylor's Shoe team. His big total helped his team to a three game victory over Vos Construction.

Taylor Shoe Store had high team series (no wonder), with games of 826-794-864—2484 total.

ANTIOCH MAN HONORED
URBANA-CHAMPAIGN — The 100 outstanding senior activity leaders at University of Illinois will be honored Dec. 4 in the annual "100 Banquet" sponsored by the Illini Union, student activity organization, and University of Illinois Alumni Ass'n.

Among those honored was Ron Hamelberg, R. R. 4, Antioch, Religious Foundations.

Mrs. Helen Luedtke and her mother, Mrs. J. Paniash left Antioch Monday for Bonita Springs, Florida, where they will spend the winter in Mrs. Luedtke's home there.

This country has set all manner of records in recent times. A new one has just been announced by Commissioner of Internal Revenue Harrington. Last year the American people paid an all-time high of \$80,-171,971,000 in federal taxes—more than the total internal revenue collected from 1789 through 1938, and some \$5 billion above the 1956 figure. All major classes of taxes contributed to the increase, the largest gains occurring in individual income and employment tax collections.

Starts On Bring-'em Back Alive Trip

Joe Patrovsky, local meat packer, prepares to leave for Oklahoma to bring back two buffalo for exhibition and buffalo raising purposes. Stewart Olson of Olson Implement accompanied Joe on the trip.

Luedtke Gets New Johnson Motors Post

Russell Luedtke, 522 Naber st., Antioch, has been appointed die cast quality control supervisor in the die cast department of Johnson Motors in Waukegan. He formerly was supervisor of the die department.

In the newly created position Luedtke will report directly to Richard Stenberg, superintendent.

Luedtke has been connected with Johnson Motors more than 11 years.

The Village Board had a special meeting with the Township Board Nov. 18 at which the possibility of a garage in which both the village and township road and other equipment might be housed. When it was learned that the Antioch garage will be on village property rather than at Sequoit Acres the idea was given up by the township.

Supervisor L. E. Murrie said that the township garage is in the "thinking stage" rather than any planning stage.

Mr. and Mrs. Elmer Baethke returned home Friday after spending Thanksgiving holidays with their son Eugene and family at Champaign, Ill.

Gas Company Employees Awarded for Saving Life

Northern Illinois Gas Company Wednesday (Dec 4) honored three employees whose quick thinking and prompt action saved a human life.

The President's Award for the Saving of Human Life was presented at the utility's annual management conference by President Marvin Chandler to Ray Cload, Douglas Dunn, and Albert Perna.

All of the three award recipients were driving to their Bellwood homes from the gas company's Bellwood headquarters last April when they saw a truck laborer, his clothing ablaze, running along the right-of-way of the Chicago and Great Western Railroad near Bellwood Avenue.

The trio of gas company employees ran after the victim, threw him to the ground, tore off most of his outer clothing and smothered the remaining flames with their own jackets.

The laborer, who received multiple second and third degree burns, accidentally had been sprayed by kerosene from a faulty container.

Eight Northern Illinois Gas employees now have been given this special award established by the utility's board of directors in 1955 to "recognize individual heroism, presence of mind and prompt action of employees resulting in the saving of human life."

Let's Make December A Safe Driving Month

The nation was handed its 1957 traffic bill, and it came to a staggering grand total of \$7,255,600,000.

That is the estimated cost of a single year's traffic mayhem based on figures for the first nine months of this year and a projection through Dec. 31. It is the highest figure in the history of the automobile.

The pro rata share borne by each of the nation's 171,790,000 citizens amounts to \$42.23. Included in the sum are charges for property damage, automobile repair, legal and medical fees, insurance expenses

and loss of income through absence from work.

In amassing this bill the nation's traffic losses will reach an estimated total of 38,300 deaths, 1,856,000 injuries and 11,700,000 accidents. An extended period of bad weather during the month of December could reduce this toll some by reducing the number of cars on the highway. Otherwise, the usual annual round of holiday shoppers and seasonal celebrants will make December once again the deadliest month of the year.

While deaths will be below the all-time high set in 1956, accidents and injuries, like the dollars cost, are continuing their steady climb and will reach new high levels. This steady increase in the total traffic casualty experience exposes the error of measuring highway safety progress solely on traffic death figures.

As for the \$42.23 "bills" charged up to every man, woman and child in the country, they can be marked paid since the cost of accidents is met on a pay-as-you-go basis. However, this is small consolation since, as matters stand, every citizen can count on his share of this economic waste to increase each year for the rest of his life.

These losses will continue until we are ready and willing to pay reasonably for safe vehicle and driver control through effective enforcement, engineering and education and until each individual accepts his personal responsibility for complete obedience to the traffic rules.

Until then, motorists with a realization of the danger and a strong will to live have the best chance of avoiding accidents. Such people will keep their minds on their driving, will not take small risks to save time and will not violate obvious safety rules like driving after drinking.

That is particularly important in the coming holiday season, if present human and economic loss estimates are not to be exceeded.

"The dictionary is the only place where success comes before work." —Arthur Brisbane.

Ban on "Secret" TV Ads Sought by Congressmen

The ultimate in "hidden persuasion" advertising—ads which the TV viewer doesn't even realize are being beamed at him—has come in for heavy attack by ad men and U. S. Congressmen.

One Congressman, Rep. William A. Dawson (R-Utah) feels that the "secret pitch" is so dangerous that he has called upon the Federal Communications Commission to request all TV stations to prohibit its use pending full investigation of the process by the FCC.

No Defense

The new technique, which is receiving such wide attention, is called subliminal advertising. It plants its message in the TV or movie viewer's subconscious mind by intermittent split-second flashes too fast to be noted by the eye. The viewer is defenseless against the subtle persuasion because he is unconscious of the stimuli. It works so fast it is below the "threshold" of his awareness.

Does the new process work? The motivational researcher who developed the technique points to the results of a six-week test in a New Jersey movie theatre. During the course of the feature picture, patrons were bombarded with invisible messages urging them to eat popcorn and drink Coca-Cola. Test records show average sales increase during the period of 57.5 per cent in popcorn, 18.8 per cent in Coca-Cola.

License Plates Available

Springfield, Ill.—Mailing of 1958 motor vehicle license plates began Monday, Dec. 2, and over-the-counter sale of plates started at the same time in Chicago and Springfield, Secretary of State Charles F. Carpenter has announced.

Because limited storage space does not permit a large inventory of plates at a time, plates will be mailed in numerical order until the majority of them have been sent, Mr. Carpenter said.

The deadline for displaying 1958 plates will be no later than February 15, Secretary Carpenter said, adding that this means mail applications should be in the Springfield office by February 1 for motorists to be sure their plates will reach them in time for the deadline.

Lester Osmond Sr. to Retire December 31 As Mail Carrier on Antioch Rural Route 1

Lester Osmond Sr., of 950 Hillside will retire as rural mail carrier out of Antioch December 31 after more than 35 years of service on the same route.

When Osmond began carrying mail on R.F.D. 1 back in 1922 the area was emerging from the horse and buggy days into the automobile age. He had 70 patron stops in his 29 miles of travel which included the present Grass Lake area and Grand avenue to Lake Villa.

Of this number only about a half dozen families of those he first started are left, but among those he serves now are their children and grandchildren.

The area that Mr. Osmond serves no longer is mainly farming land, and the summer cottages at the lake have been converted to year round residences. Now in his 26 miles of travel over improved roads he has 425 stops and delivers mail to 500 mail boxes.

"There has been a lot of changes in the area since I first started carrying mail," Osmond said. Modern transportation, modern life and a general speeding up of the tempo of life in general are noticed.

Mr. Osmond has no specific plans for the future other than to spend his time looking after local properties which he owns.

There will be a lot of patrons who will miss his pleasant greeting and good service when he makes his last round the day before New Year's.

Japanese Woman Last Of Methodist Speakers; Plan Christmas Festival

The fall series of speakers at the Antioch Methodist church will conclude at 7:30 p.m. Tuesday with a talk by Mrs. Taka Fleming on "The Church and Japan."

Mrs. Fleming is Japanese and will appear in her native costume. She participated in the Christian Youth Movement in Japan.

Now she and her husband are studying at Garrett Biblical Institute, the Methodist seminary in Evanston. They will return to Japan upon graduation.

Families Invited to Festival
At 4:30 p.m. Sunday families of the church and church school will gather at the church for a Christmas festival, "The Hanging of the Greens."

Parents and children will have fun together decorating the rooms of the church. A potluck supper will be shared at 6:30 p.m.

Following the supper Christmas carols will be sung around a large tree in Wesley Hall and a Christmas play will be presented by the intermediate chapter of the Methodist Youth Fellowship.

Mr. and Mrs. Harrison Brown and daughters, Linda and Norma, returned home Sunday after spending Thanksgiving holidays with relatives at Newton, Illinois.

Berry Candidate for State Representative At Republican Primary

LIBERTYVILLE—Francis J. Berry, village president of Libertyville announced this week that he will be a candidate for State Representative on the Republican ticket.

Berry, 45, lives with his wife and three children at 201 N. Third street, in Libertyville.

He has been a resident of Libertyville for 43 years.

Berry entered politics in 1941 when he was elected to the Libertyville Board of Trustees. He served in this capacity until he enlisted in the navy, where most of his service was with the Asiatic fleet. His two principal campaigns were the Philippines and Okinawa.

After the war he was re-elected to the Village Board in 1947 and served there until his election as Village president in 1953. He is now in his second term as president. He graduated from the Libertyville schools and attended the University of Illinois.

In private life he is a Real Estate and Insurance broker.

On Zion Concert Program
Nancy Soderberg is one of the participants in the Zion Junior Band Concert at 8 p.m. Monday at the Zion auditorium. She will play the organ. The band known as "The Band That Travels," will give the 21st annual Christmas concert before leaving for Florida to take part in the Orange Bowl parade New Year's eve.

Joe Patrovsky and Stewart Olson Will Bring Two Buffalo Home from Okla. Game Refuge

Joe Patrovsky and Stewart Olson will earn "bring em back alive" fame this week-end.

The two who left Antioch Sunday for Comanche County, Okla., for a short stay at the Michita Mountains wild life refuge, a U. S. park, expect to return with two live buffalo which Patrovsky will keep at his North Antioch packing plant grounds.

The male will be named Jo, and the female Pat, and they will be on exhibition in the community. Jo-Pat is the trade name for the Antioch Packing Co. products, the firm with which Patrovsky is associated.

While the two men will engage in a buffalo hunt while in the park, it will be to select the live animals to bring back and not a shooting process, although they may purchase some buffalo meat while there.

The American Bison Society donated 15 buffaloes to the park back

the bridge where it was 5 inches thick and bore the weight of many skaters.

Members of the rescue squad said the bodies of the two children were found close together despite the strong current that accounted for the thin ice.

Mary Jane and Hazel Jean were born Oct. 20, 1946, in Witt, Montgomery County, Ill. Surviving are five brothers, Larry 20, Roy 19, Harold 17, Robert 13, Benjamin 3, and the one sister, Margery, 1.

The bodies were taken on Monday to Nokomis, Ill., for burial.

Bert Etten became ill while at Loon Lake Tuesday and was taken to Victory Memorial hospital for care by the Antioch Rescue squad.

request, and one returned to the owner.

In other business the Village received a report from Trustee John Blackman that the roadway from Sequoit Acres to Rte. 173 has been completed so far as the grade is concerned and will be allowed to settle until spring for a coating.

Blackman said that it may be advisable to get a new street sweeper if the parts for the old one are limited.

Building Commissioner Walter Scott has advised Dan Putnam to tear down his partly constructed house rather than try to rebuild it. Friends and neighbors may help him in the work.

Trustee E. H. Glenn and Trustee Blackman will get together in preparing record books by which village employees can record the hours they spend on jobs. They concurred

with Mayor Cunningham that when the employees work at special emergency projects at night they be given that time off later in their day work.

A settlement on special assessment back taxes dating to 1934 on the Joseph Horton property has been offered by Atty. Louis Clark. He asked the Board whether the previous offer of \$639.14 would be satisfactory. The matter was referred to the village attorney for reply.

Referred to Fire Chief Edgar Simonsen and Building Commissioner Scott was the request of the Standard Oil Co. to enlarge the service station at Main and Park streets. Building plans calling for an additional stall were approved, but the street outlets must be first approved by the state. L. E. Murrie is proprietor of the station.

Street Commissioner Emil Ehnert reported that Sequoit Creek west of the sewage disposal plant had been cleaned of tree limbs under

an easement agreement. The Bell Telephone Co. will be denied its request to cut Lakewood and Hazelwood streets in Oakwood Knolls to lay lines.

"They will have to do like all of the others, use the push-under system," said Mayor Cunningham. "There will be no open cuts to spoil the streets."

The village and the fire district have not yet got together on sharing the cost of two-way radios for the firemen.

Lindenhurst

Mrs. John Selzer, Correspondent
Telephone Elliot 6-1172

Dinner guests Thanksgiving day in the John Selzer home were Mr. and Mrs. William Balmes of Winnetka and Allen Molitor of Skokie. Henry Ploss has been ill with the flu in his home since Thanksgiving day. We hope he is up and going again by now.

Monday night 15 Lindenhurst matrons gathered at the home of Mrs. Lowell Graves to do their shopping, Christmas that is, for their small fry. They had a great selection to choose from. Mrs. Gibbons displayed and explained tops and hobby craft and so many other things that the gals were hard put to decide. Shopping without tired feet, no bruised ribs from being shoved in the crowds, it was wonderful. After all the wares were put back in the boxes Mrs. Graves refreshed the ladies with cake and coffee.

Mr. and Mrs. Paul Hunt and family spent Thanksgiving in the home of her mother, Mrs. Hazel Bracke in Arlington Heights.

Mr. and Mrs. Lawrence Sterling, Robert Sterling and Everett Sterling were dinner guests in the Lowell Graves home Thanksgiving. Mr. and Mrs. Paul Hunt were dinner guests Sunday at the home of Mr. and Mrs. Charles Bracke in Chicago. The Hunts also took the time to celebrate the 6th birthday of their son, Bobbie, that day.

LITTLE BILL says:

6¢ a load

is all you pay—
to dry the clean
electric way

An electric dryer does all this for just 6¢: 3 big bath towels, 6 hand towels, 2 sheets, 2 pairs shorts, 2 T-

shirts, 5 pairs of socks, 3 pillowcases, 2 men's shirts. This average 8-lb. load will take only 25 to 30 minutes.

Nothing's faster, nothing's cleaner—
and electric dryers are completely automatic

COST?

ELECTRIC DRYERS

cost
\$30 to \$60 less
to buy
than any other kind

Just 6¢ to dry an 8-lb. load of clothes the electric way. And the electric way is the completely automatic way. No igniting devices to get out of order.

Clothes dried in an electric dryer have the good fresh smell of all outdoors, too. Electric heat is radiant heat ... like the sun. Clean and dry ... with no combustion odors to mix with the clothes.

Electric dryers are fast. You can dry a whole load of cottons in just 25 to 30 minutes. And all the "no-vent" dryers are electric. Your laundry stays clean, dry and comfortable, makes venting unnecessary.

You'll be amazed when your electric appliance dealer tells you how little it costs to own an electric dryer. Why not see about it soon?

"An Adventure In Space," New Science Show

We have reached the age of space! No longer are the predictions of the science fiction writers mere fancies spun by the imagination.

Recent events have shown that venturing into space is now a realm of reality rather than a figment of fancy. It now becomes possible in the present generation to think seriously of landing on the moon, of exploring Mars and its canals and about traveling to other planets in the solar system.

To give radio listeners a preview of what can be expected in the Age of Space, WBBM, Monday, Dec. 2, 11:15 - 11:30 p.m., will premiere a new series called "An Adventure in Space," featuring Dr. Dan Q. Posin, Physics Professor at DePaul University.

In the debut broadcast, Dr. Posin, who is one of Chicago's leading authorities on outer space, space travel and missiles, will talk about "The Earth in Space," considering

Mrs. Clem Tilton, Sr., Mrs. Lynn Sherman and Ray Butten were Thanksgiving Day guests of Mr. and Mrs. Wayne Tilton.

Earth's position in relation to the sun and to other planets.

On successive programs, to be heard at the same time each week, Dr. Posin will take up such topics as "The Space Satellites," "Rocket Round the Moon," "Space Ships and Their Passengers," "Landing on Mars," "Are There Flying Saucers?" and "Travel Between the Stars."

"An Adventure in Space" is a WBBM Public Affairs presentation, and is produced by Len Schlosser.

U. of I. Food Report

CHICAGO—Holiday tip for home-makers planning extensive baking activity—shop now. Fats, oils, canned milk and Baker's chocolate are heading up in price.

Increases are showing at wholesale on the ingredients and will be translated at retail as present stocks are depleted. Best average indicates about a penny increase at retail. Wholesale, pints of oils went up 25c per case, gallon sizes up 45c per case. (Milk, eggs and flour remain stable price-wise, however.) This may be considered a "catch up condition" as Chicago pricing on most food items has lagged the nation generally.

The weekly University of Illinois consumer service retail foods survey shows this to be the only major commodity group to deviate in an otherwise dull market aftermath of Thanksgiving holiday week, the lethargy being only momentary as plans are laid for the usual spirited tempo of Christmas menu planning.

Major meats, produce, groceries and dairy lines remain quite constant price-wise with nary a mention of turkey this week on the horizon.

Fresh produce is virtually the newsmaker in terms of good selection, quality and price situations from southern and southwestern growing regions plagued earlier in the season with rugged weather factors.

Meat departments are dubious when it comes to pegging values, with many buyers holding up a finger to see which way the wind is blowing. Against this doubtful condition, fryer prices dropped considerably, pegging this as probably the most obvious bargain right now. Selected pork also holds a logical value position, mainly bacon, fresh pork roasts and chops offering the greatest budget savings. Beef steaks, notably round and sirloins, are other potential features for the week ending Dec. 7.

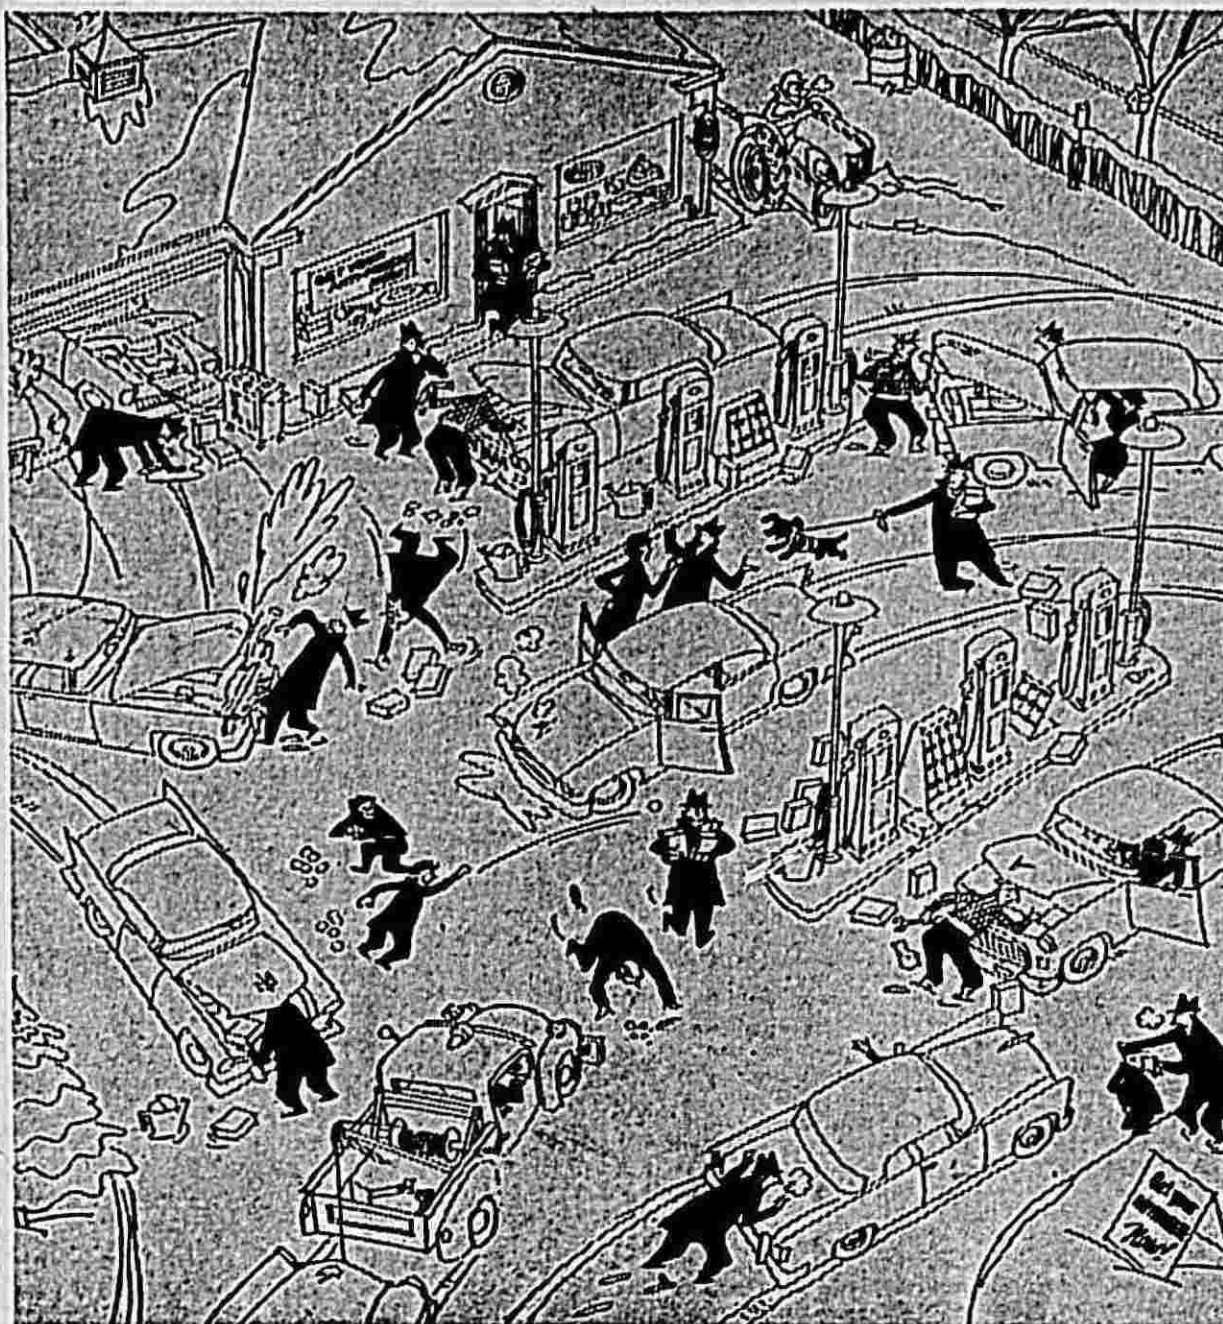

First-of-the-month unload situations offer many produce values, such as sweetcorn 100 per cent more plentiful than last year, apple storage 30 per cent up, avocados up 200 per cent, tangerines down 6 per cent in supply but with one-third of the crop arriving this month, and grapes (primarily Emperor) greater supplied than a year ago. Other December highs in supply include anise, broccoli, mushrooms, horseradish, kumquats and tangerines. Bananas also offer the consumer an excellent supply-demand relationship currently.

There are many concessions in butter and other dairy lines, and eggs are slightly depressed, large Grade A whites pricing about 65c, medium sizes up slightly on a shorter supply situation, quoting 49-51c.

Grocery and frozen food lines are generally stable price-wise (except for the baked goods ingredients), with fruit cocktail, peas and applesauce the better canned food values, and peas, orange juice and strawberries topping the frozen values.

There is certainly something in angling that tends to produce gentleness of spirit and pure serenity of mind.—Washington Irving.

Miracle of Electronics Cooks Meals in Minutes

United States housewives of the future probably will have to accept a new set of food standards when they cook.

According to Mrs. Evalyn Brinkman, associate professor of home economics at Illinois Institute of Technology, housewives will "bake non-mealy potatoes and cakes as light as souffles—electronically."

"But the miracle of electronics means that the average woman will need to time cooking by minutes and seconds, judge both weight and thickness of foods, and have the patience of Job to learn to use her new piece of equipment," she says.

Electronic cooking—the speed cookery which uses high frequency microwave energy—is here to stay, said Mrs. Brinkman. Several thousand electronic ovens already have been installed in American homes, despite the almost-prohibitive cost of \$1,000 to \$1,350.

"And many restaurants are using electronic ovens," she added. "As the production volume increases and

Rear Admiral George Dufek was the first American to set foot on the Geographic South Pole. He was the first man to stand at the exact bottom of the world since Britain's Capt. Robert F. Scott, 44 years before.

the cost decreases, almost anyone can own an electronic cooker."

A six-week experiment with an electronic range at Illinois Tech produced both steaks and cakes in three minutes.

"Watch out for overcooking, though," advised Mrs. Brinkman. Even experienced home economics teachers like the IIT staff learned

this the hard way.

"And I do mean hard," she said.

"The first baking powder biscuits we prepared were left in the oven a second or two too long and we couldn't even break them open."

Mrs. Housewife will find that biscuits don't brown, meats don't sear, and cakes don't get golden unless an auxiliary browner is used—

electronic cooking is just too fast. "A good feature of electronic cooking—she won't be in danger of a burn from a hot oven... electronic ovens stay cool," Mrs. Brinkman added.

The housewife of the future must be a competent judge of mass, since time for a given degree of doneness

is a function of mass. Six meat patties take four times as long to cook as one," she explained.

Mrs. Brinkman cited today's prepared and frozen foods as ideal for the electronic oven. She painted a picture of the housewife who says, "Wait a second and I'll have dinner ready."

YEAR END
TAX TIPS
NUMBER 1Act Now To Trim Your
Federal Income Tax Bill

This is one of a series of four articles on federal income taxes. The articles are based on information provided by the American Institute of Certified Public Accountants and the Illinois Society of Certified Public Accountants.

You still have time—but not much time—to do a little year-end tax planning and assure yourself of the best possible break when you file your tax return next April.

Millions of high, low and middle income taxpayers, realizing that careful planning of their financial affairs between now and the first of the year can pay off handsomely when the tax collector calls next spring, have already begun to establish those extra deductions and special exemptions that will reduce their tax bills.

You can do this too, but you must act no later than December 31.

To alert you to the tax-saving steps you may be able to take before the end of the year, this newspaper is printing a series of articles prepared with the help of the national and state organizations of certified public accountants. These articles—if you keep them and follow their advice—can save you money.

Evaluate Income Prospects

If you are like most individual taxpayers, your goal at this time should be to level out income for this year and next year. Needless or careless bunching of income in either year can be costly. The sharp bite of today's progressive tax rates—which you can assume will be as high or possibly only slightly less in 1958—makes it much better to have an income of \$8,000 in each of two years, rather than \$6,000 in one and \$10,000 in the other.

Taxpayers who are in danger of being whiplashed from one tax bracket to another because of wide fluctuations in their 1957 and 1958 income should act before December 31 to try to average out their taxable earnings. This can be done by careful shifting of income and deductions from one year to the next.

How to Shift Income

For example, if your two-year income estimate shows that your income for this year will be significantly higher than next year's, you should take immediate steps to throw as much income as possible from 1957 to 1958. At the same time you should speed-up the payment of all expenses that can be deducted on your 1957 return. By concentrating deductions in the higher year and switching income to the lower, you will keep your taxes for both years in the lowest possible tax bracket.

Should you be faced with the

more desirable problem of a sizeable increase in your 1958 income, reverse this procedure—delay expenses and speed-up income if you can.

Timing income and deductions to gain a tax advantage is not too difficult for the millions of taxpayers who file returns on the basis of cash receipts and cash disbursements. "Cash basis" business and professional men can shift income by simply delaying or speeding-up the collection of accounts receivable near the end of the year. Salesmen and contractors can do the same thing by extending or closing deals that may be pending in November or December.

Farmers who operate on a cash basis can accelerate or postpone income by proper timing of the sales of their crops or livestock. While their income will be taxable in the year cash is received, the full costs of raising crops or cattle are deductible for the year in which the costs were paid.

Special Income Situations

There are special situations in which it can be advantageous to bunch income in a single tax year. For example, a husband and wife can file a joint return to gain the benefits of income-splitting. Should one of them die, the survivor may file a joint return for the year in which the spouse died and also for two succeeding years under certain conditions. Thus, a widow or widower may profit by throwing more income into this year and less into next if his or her spouse died in 1955, since the privilege of filing a joint return will be lost in all cases in 1958.

If you are planning to be married in 1958, remember that the income-splitting privileges you gain will act like a rate cut for you. At \$7,000 of income, your taxes will be \$240 less than if you were single, assuming that you take the standard deduction and claim only exemptions for you and your wife. For this reason, young couples planning marriage might consider postponing income from 1957 to 1958, while accelerating deductions from 1958 to 1957.

Next Article: How to Plan Federal Income Tax Deductions.

Lawrence Dodd, a British authority, believes that taxation becomes theft at the point where the taxpayer can say to his government: "Very well, you take the profit (or estate or income) and leave me the

tax!" That situation is reached when the tax rate passes 50 per cent. The top federal individual income tax rate in this country is now 91 per cent.

A Bold Break with the Fads and Frills

Brings a Fresh Look to Automotive Styling

Here's beauty that starts way down deep—this is a new kind of beauty that stems from the industry's most advanced engineering. For example, Pontiac's revolutionary new type of cruciform AERO-FRAME let designers lower the roof-line 4 1/2 inches... and yet give you even more room inside! And wait 'til you see these interiors. Here's the sort of luxury dreams are made of. You can match or blend upholstery, carpet and body colors to the limit of your imagination, even in the lowest priced models. See your Pontiac dealer and discover the wonderful new direction styling has taken in this Bold New '58 Pontiac—

THE BOLDEST ADVANCE IN 50 YEARS!

"No More 'Something For Nothing' Fads For Me!"

says Mrs. Paul Kerns

Mrs. Paul Kerns

Who shops at the
2646 Devon Jewel

"I'm Back at My Jewel"

"I DON'T THINK MANY OF US HOMEMAKERS ARE FOOLED by those silly fads and 'something for nothing' ideas. It didn't take long for me to figure out that any store that needs stamps to attract customers must not measure up in the really important things—like thoughtful, quick service, clean stores, **everyday** low prices and a big fresh selection of fruits and vegetables.

"I can't always shop early in the day, but I've found Jewel's fruits and vegetables are just as fresh and crisp late in the afternoon as they are first thing in the morning. There's never any 'picked-over' look to my Jewel's Produce Department—that's just one of the many reasons why I'm back at my Jewel again.

"Guess I'm too grown-up to be fooled by those silly 'something for nothing' fads. And let me tell you, IT'S A WONDERFUL FEELING TO BE ABLE TO SHOP WITH CONFIDENCE AT MY JEWEL!"

It's Fantasyland Week at Jewel!

Do Your Christmas Shopping in ANTIOCH

- Bigger Values
- More Sales People
- Wider Selections
- Ample Parking

Christmas is the season for giving, but let's not "give away" our own home community through short-sighted shopping. Remember, the dollars we spend in our community stay here to support it — to pay taxes, build schools, pave and light streets, and in a hundred ways make our home town a better place to live. Let's give our home town a break this Christmas! Let's do our shopping in our own home town!
